

Primary Care Psychology Referral Information for GPs

2013

Primary Care Psychology is a completely bulk-billed psychology service located in Melbourne's south-eastern suburbs. It was established by clinical psychologist, Jonathon Walker, who recognised the need for a private, bulk-billed service after working several years within the public mental health system (eg. the Royal Melbourne Hospital; Werribee Mercy psychiatric hospital).

Jonathon has extensive experience and expertise in cognitive behavioural treatment of adults (age 17+) with depression, anxiety disorders (panic, GAD, social anxiety, performance anxiety, OCD, PTSD, body dysmorphic disorder), eating disorders (anorexia, bulimia, binge eating disorder), addictions (drug and alcohol, gambling, pornography), anger, sexual and relationship difficulties.
